

Amendment to the Specification

Please amend the replacement paragraph for the text beginning on line 3 on page 10 and ending on line 13 of the specification that was previously presented on page 2 of the Preliminary Amendment filed September 21, 2001 with the following replacement paragraph:

-- The type and amount of monoalkanolamide and emulsifying surfactant employed for preparing the inventive surfactant emulsions is limited only to the extent to which the emulsifying surfactant is capable of emulsifying the monoalkanolamide and producing a monoalkanolamide surfactant emulsion. Preferably, a monoalkanolamide surfactant emulsion contains, on a total emulsion weight basis, about 1 to about 30 weight percent on [[or]] an active weight basis of a monoalkanolamide emulsified with about 5 to about 30 weight percent on an active weight basis of monoalkanolamide emulsifying surfactant. --
